

## Sutan Gading Fadhillah Nasution

### Software Engineer, Frontend Developer

I'm **Software Engineer** who specialized in **Frontend** on Full-time work, and also has some ability to code in Backend on Freelance/Side work. Very passionate about modern mobile and web technology while taking into consideration the latest trends and techniques. I would be a fast learner in doing new things and building good teamwork either.

## Experience

### Software Engineer, Orami's Core SIRCLO | 2021 - Present

- Develop design system & guidelines on the Technical side with UX Engineer.
- Develop & Maintain Passport services for Orami Super App authentication.
- Doing maintenance, and R&D about improving Technology at codebases, such as new concepts, performance, code scalability, etc on the Frontend side.
- Creating or doing R&D on some Frontend utilities for supporting another Squad to develop app services.
- Helping to solve task/problem that is not end-to-end feature from Product or another Squad if needed.

### Associate Frontend Engineer ORAMI | 2019 - 2021

- Develop online store web app specified in kids' clothing and accessories
- Develop & Maintain Social Commerce project in order to group buy campaign
- Develop & Maintain the Express Mart project to help parents find shops around them
- Improve Seller Dashboard in order to help Seller to sell their products

### Internship Programmer PT. TEL Pulp & Paper | Jul 2018 - Aug 2018

During internship, My internship team and me created a system and web application called the e-log tracking system. This application is useful for employees of PT. TEL to track log shipments from vendors to PT. TEL
